**Supplementary Figure S2**—Working dog readiness dashboard used by working dog teams and veterinarians. This dashboard identifies each kennel with a separate line and monitors the kennel mean working score percentage (WSP) from May 1, 2021 through July 31, 2023. This tool is used to monitor changes in WSP data on a kennel basis. This image is property of U.S Army Special Operations Command, all rights reserved, and was reproduced with permission.
